**Shree Swaminarayan Gurukul| Bhavnagar**

**JUN 2018-MAR 2019**

***Class 12th Boards***

***Percentage: - 71%***

## PROJECTS

---

**Chrome extension for Leetcode**

- Developed a streamlined Chrome extension for LeetCode, facilitating task resolution by offering swift access to related challenges on the platform
- **Integrated Google's personal search API** to enhance the Chrome extension's search capabilities, providing users with personalized and relevant results
- Delivered a solution for users to effortlessly navigate and explore similar problems, enhancing the learning experience without leaving the LeetCode environment

**Project Management System**

- Spearheaded the development of a scalable Project Management System using the MERN stack
- Designed user modules that significantly reduced task-update time for employees and streamlined workflows for Project Managers

- Engineered an administrative module, optimizing project initiation and improving user and project management processes
- Implemented **real-time progress tracking features**, leading to a substantial 25% enhancement in project information accuracy

### **E-commerce Website for Restaurant**

- Created a user-centric MERN stack E-commerce site, boosting user satisfaction by 20% through optimized online ordering
- Implemented a **flexible payment system**, leading to a notable increase in overall order transactions
- Engineered a recommendation system, leading to a substantial rise in average order value and enhanced user engagement
- Empowered administrators with a centralized interface, to manage and track all aspects of the business
